## Software Engineer

I'm 26 years old. I am a Social studies graduate from Akdeniz University. Since my childhood, I have been interested in rapidly developing and computers, that's why I headed to software field. I have developed myself in this field during my studies. I had opportunities to join some events like feasts and clubs and i met friends who studied software engineering, computer engineering and I follow news about technology. I have knowledge of disciplines in History, Geography, Law, Economics, Psychology, Logic and many more since Social Science is a multidisciplinary department. I speak English more often because of my personal life. I am developing myself mentally and physically by doing sports. I have discovered my missing talents and i am trying to improve on them. Furthermore, in the emerging technology world, I follow and learn about emerging talents and innovations. I describe myself as well-disciplined, hardworking, suitable for teamwork, fast learner, responsible employee, fast at practical, trustworthy, open to learning and changes, desirous and curious person. Most importantly, i believe imagination is the fuel of man. My goal is to develop myself in the field of software engineering, create my company, make projects and research on topics such as automation, artificial intelligence and release my games.

## Education
